TECHNICAL PROJECTS

Directory Aladdin

Tech stack: Laravel, Blade, MySQL

May 2023 - present

A comprehensive business directory in Egypt, providing listings, contacts, maps, and city guides for easy navigation and informed decisions.

E-Commerce, Cotton House Kidswear

Tech stack: Laravel, Blade, MySQL

jan 2024 - jun 2024

A vibrant e-commerce platform for custom clothing, offering high-quality, tailor-made outfits for all ages and genders. Designed for elegance and practicality, it provides the perfect fit for everyday wear, celebrations, and themed events.

Company Profile, Grand Gate

Tech stack: Laravel, Blade, MySQL

jul 2023 - Aug 2023

A portfolio website showcasing and selling premium gates for commercial, industrial, and residential buildings. Built with Laravel, MySQL, and native HTML/CSS/JS, offering a clean interface for browsing categories, product details, and project galleries

ERP, Cordiana

Tech stack: Laravel, Blade, MySQL

jun 2022 - jun 2023

Developed a comprehensive ERP system using Laravel for the backend and native HTML for the frontend. The system includes role-based access control, inventory management, financial tracking, and real-time reporting.

Healthcare Register, Neo

Tech stack: Laravel, Blade, MySQL

May 2022 - jun 2023

A healthcare management platform for streamlined appointment scheduling, enabling patients to book services, view available slots, and receive confirmations. Built with Laravel, MySQL, and native HTML/CSS/JS for secure, high-performance user experiences.
