Technical Projects

Directory, Aladdin │ Teach Lead   May 2023 - present

Tech stack: Laravel, Blade, MySQL

A comprehensive business directory in Egypt, providing listings, contacts, maps, and city
guides for easy navigation and informed decisions.

E-Commerce, Cotton House Kidswear │ web developer   jan 2024 - jun 2024

Tech stack: Laravel, Blade, MySQL

A vibrant e-commerce platform for custom clothing, offering high-quality, tailor-made outfits for
all ages and genders. Designed for elegance and practicality, it provides the perfect fit for
everyday wear, celebrations, and themed events.

Company Profile, Grand Gate │ web developer   jul 2023 - Aug 2023

Tech stack: Laravel, Blade, MySQL

A portfolio website showcasing and selling premium gates for commercial, industrial, and
residential buildings. Built with Laravel, MySQL, and native HTML/CSS/JS, offering a clean
interface for browsing categories, product details, and project galleries

ERP, Cordiana │ web developer   jun 2022 - jun 2023

Tech stack: Laravel, Blade, MySQL

Developed a comprehensive ERP system using Laravel for the backend and native HTML for
the frontend. The system includes role-based access control, inventory management, financial
tracking, and real-time reporting.

Healthcare Register, Neo │ web developer   May 2022 - jun 2023

Tech stack: Laravel, Blade, MySQL

A healthcare management platform for streamlined appointment scheduling, enabling patients
to book services, view available slots, and receive confirmations. Built with Laravel, MySQL,
and native HTML/CSS/JS for secure, high-performance user experiences.

Education History

Bachelor of Computer Science   Aug 2019 - Oct 2023

Faculty of Computer Science and Artificial Intelligence, Helwan University

- Major in Computer Science.
- Manor in information system
